A diagram of a circular structure, possibly a wheel or a disk, divided into eight radial segments by lines extending from a central hub. The segments are labeled with reference numerals: 3218 for the outer rim and 3219 for the radial segments. A dashed line passes through the center, with arrows pointing downwards from each end, labeled 32D.

A cross-sectional view of a curved structure, possibly a lens or a part of a device. It shows a central curved region with a flat top surface. The left and right edges are labeled 3107 and 3106, respectively. The central curved surface is labeled 3219.

32D-32D
